

# Welcome to our home!

FINN  
GURU

*What is everyday life like in Finland? What does a Finnish home look like? How does the Finnish way of life feel like? Welcome to our home!*

**HOSTESSES:** Minna and Pipsa | **TRANSFERS:** Included | **MEALS:** Homecooked lunch

Your hostess Minna is waiting for you at the grocery store; together you will do the weekly shopping for the small family.

Minna is a private entrepreneur who works from home, so she has organized a compact but practical home office into the small three-room apartment in Espoo. A Finnish home is a miracle in functionality: there is a room for both the mother and the daughter as well as a small private sauna in the flat.

Minna starts preparing the lunch while you look around the apartment. You are warmly welcome to participate in the cooking!

When the 9-year old Pipsa comes home, it is time to sit down for lunch. During the meal Minna and Pipsa tell you about their life; Pipsa also speaks some English and is eager to chat with you. Would you like to help Pipsa with her schoolwork?

FinnGuru family includes all kinds of host families from all around the country. Let us know whereabouts in Finland you will be travelling, and we'll find you the perfect hosts!
